

# Lean Management - Yellow Belt

This course covers what True Lean comprises in the context of quality and effectiveness improvement. Key practices and how to lead during a Lean intervention are explored, including management of change and frontline culture enrichment.

For more information and to apply, visit  
[www.celtec.ie/leanyellow](http://www.celtec.ie/leanyellow)

## Course Learnings

### Lean Principles & Operational Excellence

Develop a practical understanding of True Lean principles and how they drive quality improvement, operational effectiveness, and organisational transformation.

### Waste Identification & Process Improvement

Learn to identify hidden sources of operational waste and apply proven Lean tools such as process mapping, 5S, visual management, and Gemba walks to improve business performance.

### Structured Problem Solving

Apply systematic problem-solving techniques, including A3 thinking, root cause analysis, 5 Whys, and DMAIC, to resolve workplace challenges effectively.

### Leading Change & Team Engagement

Develop the skills to lead Lean improvement initiatives by managing change, engaging frontline teams, and fostering a culture of continuous improvement.

### Project Delivery & Sustainable Results

Plan, deliver, and evaluate a high-impact Lean improvement project using structured implementation methods to achieve measurable and sustainable business benefits.
